EDUCATION

CMR College of Engineering & Technology

B.Tech. in Computer Science and Data Science CGPA: 8.0/10

Pragathi Junior College

Intermediate (Class XII) Percentage: 95.80%

M.M.H.S High School

Secondary School (Class X) CGPA: 10.0/10

Hyderabad, Telangana

2023 – 2027

Nalgonda, Telangana

2021 – 2023

Suryapet, Telangana

2020 – 2021

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript (Basics)

Web Technologies: HTML, CSS

Data Science & Machine Learning: Machine Learning, Data Preprocessing, Data Cleaning, Feature Engineering, ETL Pipeline

Data Analytics & Visualization: Power BI, Business Intelligence

Developer Tools: VS Code, GitHub (Basics)

Core Computer Science: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

INTERNSHIP

Data Science Intern

Jan. 2026 – Apr. 2026

Grad Guru

Remote

- Developed machine learning workflows in Python by performing data preprocessing, feature engineering, model training, and model evaluation on structured datasets.
- Built data analysis pipelines using Pandas, NumPy, and statistical analysis to clean, transform, and analyze data for predictive modeling.
- Implemented and evaluated machine learning models using Scikit-learn, applying appropriate evaluation metrics to compare performance and document project outcomes.

PROJECTS

Medication Reminder Agent | Python, Streamlit

15 May 2026 – 20 Jun 2026

- Developed a medication reminder application using **Python** and **Streamlit** to automate medication scheduling, reminder management, and improve medication adherence through an interactive user interface.
- Implemented user input validation, scheduled reminder workflows, and healthcare data management to deliver a responsive and user-friendly application.

AI Resume Analyzer & Job Matcher | Python, Streamlit, Pandas

12 Aug 2025 – 24 Oct 2025

- Developed an **ATS-based Resume Analyzer** using **Python**, **Scikit-learn**, and **PyPDF2** to extract skills from PDF resumes, perform resume parsing, and recommend suitable job roles using **TF-IDF cosine similarity**.
- Built and deployed an interactive **Streamlit** application featuring resume scoring, keyword matching, skill-gap analysis, and real-time job recommendations.
- Deployment:** [Streamlit Community Cloud](#)

Sales Analytics ETL Dashboard | Python, Pandas, SQLite, PyYAML

05 Jul 2025 – 24 Jul 2025

- Developed an end-to-end ETL pipeline using **Python**, **Pandas**, and **SQLite** to extract, transform, validate, and load sales data from multiple sources.
- Implemented automated reporting, KPI generation, data transformation, CSV export, and logging using **PyYAML** and **OpenPyXL** to support business analytics and reporting.
